
Savvy Baby organic crib mattress

PROTECT the mattress with a washable puddle pad under the crib sheet.

VACUUM the mattress regularly with a vacuum cleaner's hand attachment. This removes dust and microscopic debris and helps reduce allergens.

FLIP THE MATTRESS periodically if desired.

DO NOT MACHINE WASH or DRY CLEAN the casing. Although zippered casings are removable, washing organic cotton and wool batting (quilted inside the fabric) will cause shrinkage. Dry cleaning results are inconsistent; we cannot warranty that a dry-cleaned casing will not shrink. Casings are individually hand-sewn; replacement casings are available.

SPOT-CLEAN the casing if necessary. Sponge the area with a sponge lightly dampened with a cold water and mild natural soap solution. Do not saturate. Air dry thoroughly.

FOR SEVERE STAINS that spot-cleaning won't remove, try running a cold water and mild soap solution through just the soiled area of the casing until clean. Press water out on a dry towel; repeat as needed. Do not wring or twist the casing ("agitated" wool fibers lock together tightly, causing shrinkage). Line dry or dry flat until thoroughly dry.

Important note

Savvy Baby performs best on solid-bottom cribs; rigid support is required by warranty. For spring-type cribs, a ventilated support board should be added.

Specifications

- Fabric: Certified organic cotton with certified organic wool batting.
- Latex: Natural Dunlop: Firm.
- Fits standard cribs.

Warranty Limited 20-year warranty protects against defective workmanship.

Made in the United States.
